

NETHMI NIMSARANI THAMBAWITA

ASSOCIATE SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Address: Dehiwala, Sri Lanka / Nationality: Sri Lankan / Tel: +94 71 336 5616

Email: thambawitanethmi@gmail.com / LinkedIn: [linkedin.com/in/nethmi-thambawita](https://www.linkedin.com/in/nethmi-thambawita)

Portfolio- <https://nethmi-portfolio-wyt5t5ih4-nethmi1.vercel.app/> / GitHub: [NethmiThambawita](https://github.com/NethmiThambawita)

PROFESSIONAL PROFILE

Results-driven Software Engineer with hands-on experience in full-stack web and mobile application development, specializing in the MERN stack, .NET Core, and modern frontend frameworks. Skilled in designing scalable dashboards, secure authentication systems, and real-time reporting solutions. Strong background in Agile methodologies, QA testing, and DevOps practices with Docker and Git. Published IEEE author in AI-driven anomaly detection and adaptive retrieval systems, with experience delivering both academic and industry-grade projects. Adept at translating complex requirements into efficient, user-friendly solutions while maintaining high standards of performance and security.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, C#, HTML, CSS, PHP, Java, Python
- Frontend: React.js, React Native
- Backend: Node.js, Express.js, .NET Core, Spring Boot, REST APIs
- Databases: MSSQL, MongoDB, MySQL, SQLLITE
- Tools & DevOps: Git, Docker, Figma, Postman, Vercel, Render
- Testing: Postman, SoapUI, Cypress, UAT/QA methodology
- Data & Reporting: Python (pandas, openpyxl), ClosedXML, Excel/CSV automation
- Strong knowledge of SDLC, Agile, Scrum
- Version control with Git & GitHub

WORK EXPERIENCE

DMS Electronics (Pvt) Ltd. – Associate Software Engineer

July 2025 – Present

- Developed and maintained enterprise web and mobile applications using React.js, Node.js, TypeScript, MongoDB, React Native, and the MERN Stack.
- Built an admin dashboard with user and role management to improve system administration.
- Enhanced and maintained Linux-based Asterisk applications integrated with agent call management systems.
- Performed security testing and vulnerability remediation for HSM Authentication Servers and authentication APIs.
- Investigated and resolved production issues, managed deployments, and implemented client-specific enhancements.
- Collaborated in Agile teams, conducted client demos, and prepared technical documentation (SRS, Design, SOW, CR, UAT).

DMS Electronics (Pvt) Ltd. - Software Engineer Trainee

Nov 2024 – June 2025

- Developed enterprise web and mobile applications using React.js, Node.js, TypeScript, MongoDB, React Native, and the MERN Stack.
- Built an admin dashboard with role-based access management.
- Performed unit testing for IVR applications using C# and UI testing using Cypress.
- Resolved production issues, implemented enhancements, and provided application support.
- Conducted client demonstrations, gathered feedback, and supported Agile project delivery.

PROJECTS

- **Research Data Collection Application (Mobile App Development | DMS Electronics)**
 - Designed and developed a cross-platform mobile app using React Native for bird, bivalve, and phenology field surveys.
 - Implemented secure authentication (Email, Google Sign-In, Biometric) and built a dynamic dashboard with advanced search and filtering.

- Integrated offline-first architecture using SQLite for field operations and added GPS-based location validation and automatic data synchronization.
- Optimized UX with Light/Dark mode and performance tuning. Technologies: React Native, Node.js, Express.js, MongoDB, SQLite, Docker
- **Reporting Application (Call Center Management | DMS Electronics)**
 - Integrated four SQL Server databases with automatic failover and developed 12 report modules for service metrics and agent performance.
 - Built a real-time KPI dashboard with 60s polling intervals and implemented role-based access control and secure authentication.
 - Engineered memory-efficient Excel/CSV exports for 60,000+ row datasets.
 - Applied data validation and timeout logic for performance optimization. Technologies: ASP.NET Core MVC, C#, Razor Views, SQL Server, IIS
- **AI-Enabled Lost and Found System with Adaptive Retrieval and Intelligent Security Monitoring (Final Year Research Project – IEEE Published)**
 - Built a predictive analytics and adaptive retrieval platform for device loss prevention and intelligent security monitoring.
 - Tech: React.js, Node.js, MongoDB, Python/Flask
 - GitHub (<https://github.com/Minukweerakoon/Reclaim->)
 - Published in the IEEE proceedings of the 2026 8th International Congress — see Publications below.
- **Zero Waste Web Application (SLIIT Project)**
 - Centralized waste management platform connecting citizens & recycling centers.
 - Tech: React.js (Vite), Node.js, Express.js, MongoDB, Tailwind CSS
 - GitHub (<https://github.com/NethmiThambawita/ZeroWasteHub-ITPM>)
- **PAWS Pet Care Web Application (SLIIT Project)**
 - Full-stack pet care platform with e-commerce features.
 - Tech: MERN stack
 - GitHub (<https://github.com/NethmiThambawita/PawsPetCare>)

PUBLICATIONS

M. M. Weerakoon, K. U. Wijesundara, K. V. Wickramasinghe, N. N. Thambawita, D. Wijendra, and J. Krishara, “AI-Enabled Lost and Found System With Adaptive Retrieval and Intelligent Security Monitoring,” 2026 8th International Congress on Human-Computer Interaction, Optimization and Robotic Applications (ICHORA 2026), Ankara, Türkiye, May 2026, IEEE.

EDUCATION

- BSc (Hons) in Information Technology – SLIIT (Completed, GPA - 2.83) - (2022 – 2026)
- G.C.E Advanced Level (Physical Science) – Dharmashoka College, Ambalangoda (2021)
- G.C.E Ordinary Level – Dharmashoka College, Ambalangoda (2017)

CERTIFICATIONS

- AWS Academy Graduate – Cloud Web Application Builder – Training Badge, Amazon Web Services (Issued Sep 2025)
- SQL Basic, Intermediate – HackerRank (Issued Jun 2024)
- AWS Certifications – Highly Available Web Applications, Amazon Web Services (Issued Sep 2025)
- AI/ML Engineer – Stage 1 – SLIIT (Issued Jan 2024)

LANGUAGES

- Sinhala (Native)
- English (Proficient)
